

Bradley

Landscape and Forestry Supervisor

Joined The Parks Trust: 2013

What do you do?

I manage a small team of staff undertaking tree climbing, woods thinning and working with machinery outdoors come sunshine or rain.

What did you do when you left school?

I went to college and studied for a diploma. I then volunteered at different placements for a year in zoos, vets and woodlands.

Why did you want to work for The Parks Trust?

I enjoy being outdoors and it was always my ambition to work with wildlife and help the the environment.

Describe your career journey so far.

I joined as a Trainee but I made quick progression to Supervisor within 4 years. I have had lots of training and there has been lots to learn.

What skills or qualities do you need to be successful in your role?

You need to have an open personality and good sense of humor. There is lots of banter that goes on in our team.

As long as you are energetic and get stuck in to the practical tasks you will progress quickly.

My words of wisdom...

If you want a career in wildlife or the environment, practice your observation and ID skills whenever you are outdoors.
